HOTELS & RESORTS

Barceló Hotels and Resorts announce a \$16,000,000USD renovation for both of their hotels in Cozumel, Allegro and Occidental.

We are proud to announce the project of an \$8,000,000USD renovation at Allegro Cozumel. The transformation includes a makeover of the property's 305 guestrooms and suites to complement the inviting lobby, restaurants and spectacular beach. The family friendly hotel, located on the south end of Cozumel, is a popular destination for families and avid divers, as well as sports event.

The restyled rooms, will offer contemporary comfort and exceptional function to enhance the guest experience. The top-to-bottom improvements include the redesign of bathrooms and bedrooms with a coastal chic aesthetic accented in colors of blues and browns. The rooms feature new furniture and lighting fixtures, ceiling fans with lights, new energy saving A/C system, proximity system in door locks, flat TV, minibars and electronic safety deposit box in all rooms. The sleek bathrooms feature all new fixtures and finishes including glass mosaic tiles and white porcelain sinks with stainless steel faucets and hardware. The stairs and handrails of all villas will also be renewed.

Other public areas will have improvements as well, to complement the recent remodeling of the walking paths of the entire resort such as new LED lighting and wide coverage security system throughout the whole property, enhanced Wi-Fi signal, new Beach bar and refurbishment of the current Snack bar, Wet bar, Jacuzzi and the children's Playground.

As for the Occidental Cozumel, this enchanting hacienda-style resort has also started its renovation project with an investment of \$8,000,000USD that will make this unique property an even more luxurious option for couples, divers and families looking for a beachfront hotel with a colonial style in a secluded tropical area.

The room improvements, focused on modernization of services for a full luxury experience include: new finishes, décor and furniture, including new mattresses; flat screen televisions in all rooms with a larger variety of channels, ceiling fans with light, new proximity system in door locks and energy saving A/C system; iDock stereo and alarm clock, new led lighting fixtures. The bathrooms include all new fixtures and upgraded toiletries plus a redesigned shower. The stairs and handrails will also be renewed.

Major improvement of public areas will also be taking place such as the construction of a new Theater, renovation of the Beach Club and swimming pools with an intelligent quality water control system. Renovation of the walking paths throughout the resort including the wooden bridge that connects to the beach, new LED lighting and wide coverage security camera system, improved Wi-Fi signal throughout the whole property. Refurbishment of restrooms and upgraded equipment for the Gym & Spa will give our guests the comfort and service they deserve.

With this transformations scheduled to be done before winter season, the Allegro Cozumel and Occidental Cozumel are excited to continue their services with improved facilities.
